About College

Ratnam Institute was established in the year 2007 is located in a pleasant ambience with sprawling campus, good infrastructure, large playground, centralised library.

The Institute offering B. Pharmacy, Pharm.D, Pharm D (PB), M. Pharmacy in Pharmaceutics, Pharmaceutical analysis, Pharmacology, Pharmacy practice. The Institute catering higher education and research requirements of the students.

Objectives of Program

Provide an overview of the latest technology advancements in drug discovery, including AI & Machine learning.

Discuss strategies for identifying & Validating Potential drug targets

Learning outcome of the Program

Participants will gain a deep understanding of the latest innovations & Technologies in drug discovery

Encourage innovative thinking & the exploration of new approaches to drug discovery.

Venue	202 Class room -Ratnam Institute of Pharmacy

Objective of the Program:

The primary objective of clinical research studies includes improvement in patient management. Most clinical research studies are aimed at discovering a new/novel drug to treat a medical condition that presently has no specific treatment, or the available drugs are not particularly effective in curing the disease.

Topics Covered:

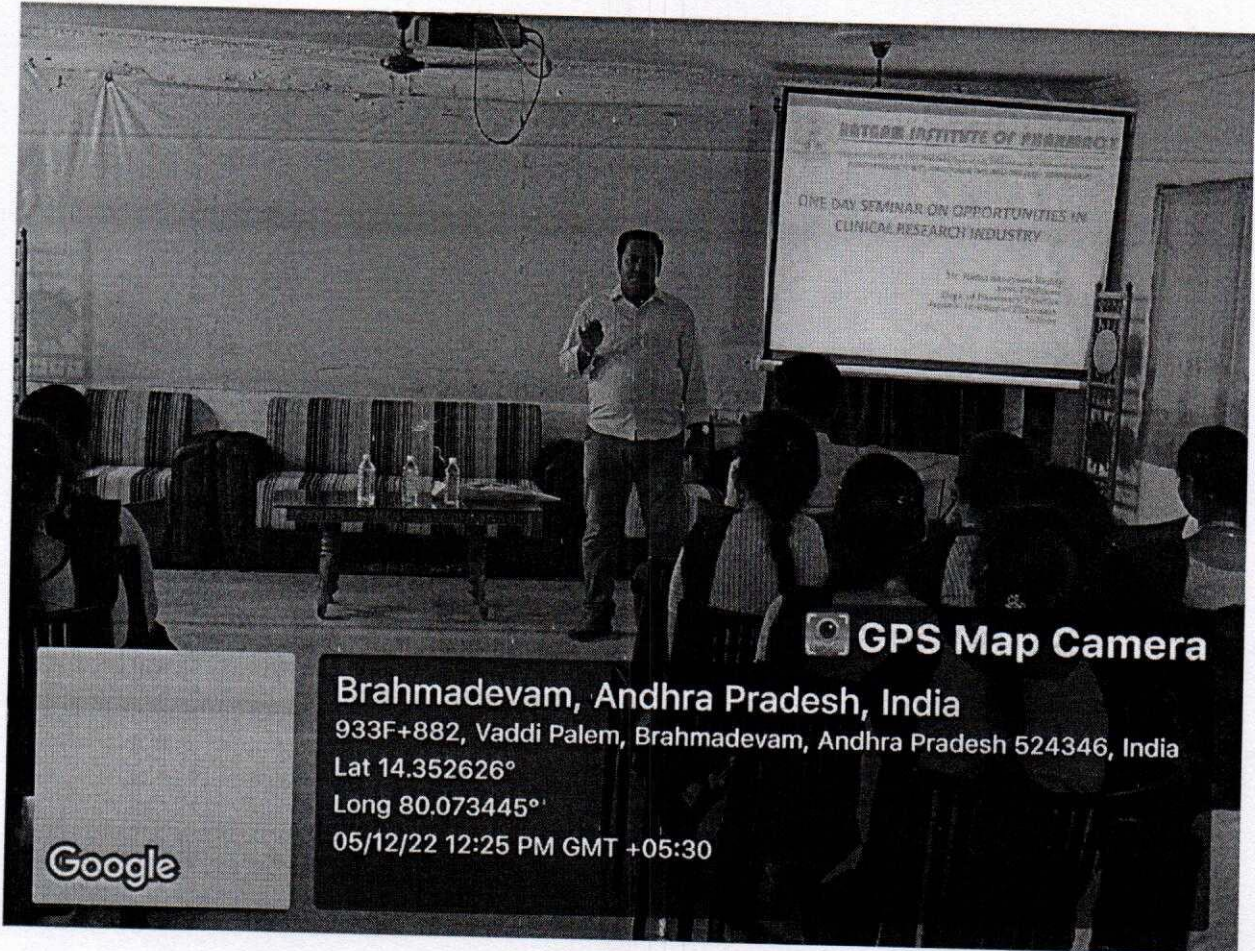

- Future prospects
- New innovations in clinical research industry
- Types of innovations in clinical research industry
- Benefits of clinical research industry
- Uses of clinical research industry
- Choosing oof clinical research industry
